

牌照灯亮度测试系统 License plate lamp brightness test system

- 远方SRC系列光谱彩色亮度计配合GO-HD5转台，根据GB，ECE,SAE等相关标准的要求，可实现牌照灯各点亮度的自动测量。

The remote SRC series spectral color luminance meter, together with the GO-HD5 turntable, can automatically measure the brightness of each point of the license plate lamp according to the requirements of GB, ECE, SAE and other relevant standards.

技术参数 Specifications

- 集光谱、亮度、颜色测量功能于一体
It integrates spectrum, brightness and color measurement functions
- TFT液晶和触摸屏显示界面
TFT LCD and touch screen display interface
- 不同尺寸的牌照灯支架可选
License lamp holders of different sizes are optional
- 重要软件功能
Important software functions
- 配合GO-HD5转台自动逐点测试
Cooperate with GO-HD5 turntable to test point by point automatically
- 支持PC及远程控制和本地控制两种工作模式
Support PC and remote control and local control
- 可存储200组测试数据
Can store 200 groups of test data
