GT-7578 中管撓度試驗機

SHAFT DEFLECTION TESTER

本儀器專門測試運動器材之復合材料中管，如：高爾夫球桿中管，撞球桿中管.....等之彈性，將中管一端固定，另一端施加一定之荷重，量測其撓度變化量。

This tester is specially used to test the middle shaft of sport equipments which are made of composite materials, such as: the flexibilities of golf club shaft, billiards cue....., etc. Fix one end and place specific loads on the other end, then observe its deflection.

測試動力	Test method	氣壓方式 Setting value
試料長度	Specimen length	600~1200mm
測試行程	Test stroke	0~220mm
撓度顯示	Deflection indication	LED 數值顯示, 最小讀數 1mm digital display, resolution 1mm
荷重	Loads	2700 g, 2724 g, 3000 g
體積	Dimension(WxDxH)	168 x 20 x 157 cm
重量(約)	Weight(approx)	114kg
